

Corporate Online!

Introducing.....

“MYTRAVEL ONLINE”

-the Online Corporate Booking Tool of Choice!

As the Internet becomes a fact of our daily work lives, MyTravel has chosen to seek out a tool to save our clients time and enhance their travel experience. We wanted something that would allow our customer base to book their own trips online with the same advantages that their travel agents currently have, along with the ability to keep track of all individual bookings in one place.

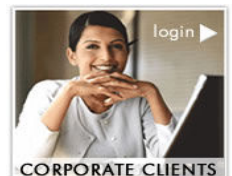

Fortunately we didn't have to look very far. Sabre Holdings, one of the world's most experienced travel companies, who currently supply us with Sabre booking service, had created the "GetThere" product for applications exactly like ours. And after enjoying great service from Sabre ourselves for over the past 25 years, "Sabre GetThere" was a natural choice.

Sabre "Get There" is a revolutionary on-line travel booking tool, 100% dedicated to providing the best corporate online travel booking product on the market. Based on the award winning leisure travel display from Travelocity, GetThere leverages resources to capitalize on the technology and travel expertise of the world's leading corporate online booking tool.

The result is our innovative product that allows travellers to book travel independently while still set up and managed as a group. It is a fast, efficient, user friendly booking tool that is a one stop shop - you can book everything - car, hotel, flight and more, all on our one site. It's that easy. And if you need us at all, we are a phone call away. GetThere means your company has the convenience of an online booking tool with the security of our experience behind you. Give us a try!

For more information on how to get set up with this revolutionary Corporate Online Booking Tool, call The MyTravel Corporate office near you:

Kamloops 250 374-4100 Kelowna 250 861-8011 Prince George 250 614-1900 Regina 306 584-9220

Main Advantages of MyTravel's Online Booking Tool:

- **Easy to Use** Straight forward prompts such as drop down lists, check buttons and a concise legend make this travel tool easy to navigate and use!
- **Minimal Time Investment** Able to access over 28,000 flights as well as car rentals and hotels at the same time. No longer have to search different sites - One stop shopping!
- **Money Saver** Wide selection of travel choices and discount program prices available at your fingertips can allow for significant saving opportunities.
- **Travelling Tools** Extensive choice of tools such as maps and advisories to keep you up to date on any weather warnings or travel advisories that may be applicable to your trip.
- **Customization** Aids in managing your company's travel through the ability to customize and reflect your company's travel policies and procedures.
- **Online Management** Ability to manage and update the profiles of all travellers so that information is always current.
- **Reporting System** An integral part of managing your company's travel, these reports are available monthly, quarter, semi annually or annually. This system has proven to be invaluable for budgeting and accounting while integrating with most HR and expense reporting applications.
- **Palm Query Application** Designed for PDA's to allow instant access to itineraries, flight schedules, gate and time information for those planners on the run .
- **Globally Flexible** Operational in over 40 countries and can operate in several languages. It can also display pricing in any requested major currency.
- **Leading Edge Security** State of the art data centre ensures market-leading reliability and the highest level of security of customers' information and transactions.
- **Local Support** Local MyTravel personnel support your travel needs at home or away.
